

Mobile App Developer (full-time)

You would like to be part of an exciting startup that is just entering the fintech scene? You would like to apply your software development skills to help solve a big social challenge? **Then join our team!**

Monkee is an early stage startup in the fintech space. Our financial coach is combining insights from the field of behavioral economics with machine learning to help people lead a more financially healthy life. We are launching our product in the first half of 2019 and are seeking to grow our tech team by bringing on board a dedicated mobile app developer that helps us to further develop and optimize our solution.

What you will do:

- Development of our app framework using react native
- Advance conceptual design for our mobile application
- Contribute to further improve the development process as part of agile team

What you offer:

You are a team player with a passion for building solutions that help people and create social impact. You have a well-rounded profile with a background in computer science and a track record of developing mobile applications on both iOS and Android platforms.

- Completed Bachelor, Master or Ph.D. in Computer Science or in related field
- Solid experience in developing mobile applications on iOS and Android platform
- High level of proficiency in React Native (at least 1 year development experience) and CSS
- Experienced with Android Studio (Java, Kotlin) and Xcode (Swift)
- Solid knowledge of software development and agile methodologies and tools
- Team player with high performance orientation, highly structured mind and attention to details
- Experience in end-to-end developments, node.js is a plus

What we offer:

You are part of a great team in a very dynamic environment where you can make a real impact. Monkee offers you a broad application field to apply your skills with a high degree of autonomy and a chance to actively participate in building out the company's tech stack.

- Competitive minimum wage & additional incentive schemes
- Steep learning curve with a variety of application areas for your skills
- Hardware of choice
- Central office location in the lifestyle capital Innsbruck with flexible working hours
